

### **CONSENT FOR ACCESS FOR SAMPLING**

My name is \_\_\_\_\_. I am the owner of the property located at \_\_\_\_\_, Texas ("Property").

By signing this Consent for Access For Sampling ("Consent"), I consent and agree to provide access to my Property to permit up to four (4) soil samples to be collected in the yard on my Property. I consent and agree to provide access to my Property on the following terms:

1. The sampling will be performed at the direction of the United States Environmental Protection Agency ("USEPA") in connection with an investigation related to the San Jacinto River Waste Pits Superfund Site ("Site").
2. The sampling will be performed by Anchor QEA ("Anchor"), the contractor for two parties identified by USEPA as potentially responsible parties at the Site.
3. Up to \_\_\_\_ representatives of Anchor are authorized to enter my Property to perform the sampling. A representative of EPA is also authorized to enter my Property to observe the sampling being performed by Anchor.
4. The soil samples will be collected using hand-held equipment. The equipment will be used to bore about two feet into the soil at each sampling location. After each sample is collected, excess soil will be placed back into the boring and tamped in. If necessary, clean topsoil will be added so that the hole is completely filled. If the location of the sample is covered by grass, then prior to sample collection, a small section of grass will be cut away and saved. Once the hole has been filled, the small grass square will be placed back on the soil surface, tamped down, and watered.
5. USEPA will notify me in advance of the time and date for the sampling by contacting me as follows: [identify method and details for providing notice]. All sampling shall be completed no later than \_\_\_\_\_, 2011.
6. USEPA will provide a summary of the results of the sampling to me within one week after the final results are received by USEPA. I understand that results of the sampling may also be provided to the public but without identifying my Property as one on which samples were collected.
7. I have the authority to grant access as provided in this Consent, and acknowledge that I have entered into this Consent voluntarily with knowledge of my right to refuse and without threats or promises of any kind.

Signed on \_\_\_\_\_, 2011 at \_\_\_\_\_, Texas.
